

REMARKS

In the application claims 1, 2, and 20-22 remain pending. Claims 3-19 have been canceled without prejudice and will be pursued in a continuation application. Claims 20-22 have been added by amendment and find support in the application and claims as originally filed. No new matter has been added.

Claims 1 and 2 presently stand allowed. Added claim 20 depends from claim 1 and, as such, should also be found to be allowable.

Added claims 21 and 22 are directed to the invention of non-elected Group I. However, allowed claims 1-2 link to Group I. Thus, as acknowledged in the Restriction Requirement of July 14, 2004, since claims 1 and 2 presently stand allowed, the restriction requirement as to the linked invention of Group I should be withdrawn.

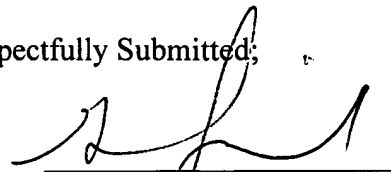

It is believed that added claims 21 and 22 should be found to be allowable for the same reasons as claims 1 and 2. Such action is respectfully requested. Nevertheless, should it be determined that a telephone conference would expedite the prosecution of the subject application, the Examiner is respectfully requested to contact the attorney undersigned.

While it is not believed that any fees are due, the Commissioner is authorized to charge any fee deficiency to deposit account 50-2428 in the name of Greenberg Traurig.

Respectfully Submitted;
